

ARGENTINA

ECO LEATHER \square 1. layer – 70% POLYESTER, 30% COTTON \square 2. layer – 100% POLYURETHAN

Argentina is an ecological leather whose upper cover layer is made of polyurethane. It is extremely long-lasting, which does not contain dangerous substances. It is a fine texture, easy to maintain and extremely smooth to the touch. It is of German origin, and during its production all European measures and norms were strictly observed.

Firmness:

Firmness represents the resistance of fabrics to wear. On the skin this refers to scratches, while on fabrics they refer to rubbing during cleansing.

More full dots = more firmness

Maintenance:

Maintenance is the resistance of the fabric to stains. Fabrics with a maximum grade are stain resistant and can be cleaned with a number of different cleaning products.

More full dots = easier maintenance

Color fastness:

Color fastness is the resistance of a fabric to UV radiation. There are fabrics and skins that are protected from bleaching caused by UV radiation.

More full dots = more color fastness

Colors from HOSS collection:

White Cloud

Phantom

Chocolate Brown

Granit Grey

BEECH

100% SOLID WOOD

The solid wood found in our products comes from controlled sources and is FSC certified. This type of wood in our product collection comes in 3 different finishes:

Beech Natur:

Natural oil is used to protect the wood in this finishing. It emphasizes the color and structure of the wood, and leaves no visible and tangible film on the surface.

Beech natur as a finish imitates the natural color and texture of beech.

Beech Rustic:

Varnish is used as wood protection in this finishing. It completely covers the pores and forms a hard layer that protects the wood from dirt and moisture. Beech rustic has a more characteristic and lively look, a slightly darker color than Beech natur.

Beech White Wash:

Varnish is used as wood protection in this finishing. It completely covers the pores and forms a hard layer that protects the wood from dirt and moisture. Beech White Wash is a much lighter color than natural beech. This finish is often called bleached beech.
